

12/05/21

To whom it may concern,

Tony Attridge has been Training and Assessing students from Palm Beach Currumbin State High School for the past 10 years. His professionalism with students and staff during this time has been of the highest standard. Tony is highly organised and extremely professional in his conduct and consistently demonstrates competency as a Manager, a Trainer and an Assessor.

Tony's partnership with Palm Beach Currumbin State High School and the College of Health and Fitness has led to: an upskilling of staff, increased engagement of students and most importantly significantly improved the vocational and tertiary pathways of students.

I have no hesitation recommending Tony to you and look forward to his continued partnership.

Sincerely,

Tim Maccan
